

## PART IN-506 - TECHNICAL MATERIALS

### IN506.05 Distribution of materials within NRCS.

- (a) Each NRCS office where an engineer is assigned will receive one copy of the National Engineering Handbook (NEH) sections and technical releases. NEH-19, Construction Inspection, will also be distributed to each inspector.
- (b) Each field office, engineer, and civil engineering technician will receive one copy of the Engineering Field Handbook(EFH). Other copies will be furnished as requested.
- (c) The state conservation engineer will supply engineering standard drawings, national standard detail drawings and national engineering notices or notes as needed.
- (d) Special distribution other than listed above will be made as determined by the state conservation engineer.

### IN506.06 Distribution of materials outside NRCS.

- (a) Non-NRCS individuals or organizations requesting engineering technical materials shall be referred to the following sources as may be applicable:
  - 1. NRCS web sites, both local and national
  - 2. Other government agencies' web sites
  - 3. Water Resources Publications, LLC  
Phone 800-736-2405  
[www.wrpllc.com](http://www.wrpllc.com)
  - 4. National Technical Information Service (NTIS)  
Phone 800-553-6847
- (b) Requests for technical material not available at the above sources shall be made by letter addressed to the state conservationist. Distribution of the technical material will be made as determined by the state conservation engineer.
