

Fulton County EQIP 2004 State Map Hits

Based on the coverage, those present decided to adopt the state's 2004 maps and scoring as the Local Ranking Criteria for Fulton County. In the event that a landowner wished to address all possible concerns and achieved more than 500 state points (there are only a few spots in the county where this could occur), the application would receive a local score of 500. Any need for a tiebreaker would be met by using the state score.
