

2006 CSP Job Sheet IN-EPM-02 Pest Management

Precision Application Technology - Pest Management Enhancement #02

DESCRIPTION - This enhancement improves pesticide applications with precision application technology. It will result in more efficient pesticide applications resulting in less overlaps during spraying operations and reducing the amount of pesticide applied to the field. Lower overall pesticide application amounts will reduce the amount that can be lost due to runoff, leaching, or drift helping to maintain or improve water quality.

Enhancement Requirements

The CSP participant will use technology such as, but not limited to, GPS, auto-steer and light bars to make pesticide applications.

Performance Requirements

Required Documentation = The CSP Participant will certify this activity annually by signing an annual payment certification letter and submitting it to the NRCS office servicing the contract. The CSP Participant will retain annual records of the acres and pesticides applied using Precision Application Technology.

Enhancements must be established for one full crop season before payments can be made.

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326W Whitten Building, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.
