

Remove Photos from ArcPhoto

Abstract

This document covers the process to remove some or all photos from the ArcPhoto window in ArcMap.

Details

1. Select the photos to be removed from the ArcPhoto window. If you want to remove all photos, you can skip this step.
2. **Right-click** inside of the ArcPhoto window.
3. On the menu that appears, **click** either ***Remove Selected Photos*** or ***Remove All Photos***.
4. Depending on the choice made in step #3, either all or only the selected photos will be removed from the ArcPhoto window.
