NO YES

If yes, what tribe? _____

COLLECTION SITE INFORMATION

State _____

County _____

Township _____

Range _____

MLRA _____

(Refer to enclosed map or consult local NRCS Field Office)

Any additional information about the sample identification.

- Please complete the above form as completely as possible.
- Enclose the completed form with the seed shipment.
- Be sure to label each collection as it is made, so collections do not get mixed up. Send seed to the Rose Lake Plant Materials Center within 24 hours after collection.

Seed Collection: Check each collection for filled seed and then attempt to get at least 500 seeds for each population. Mature seed is typically brown to tan in color and separates easily from the tree.

Put seeds in a cloth or paper bag and store under cool, dry conditions until shipment to the Rose Lake Plant Materials Center. **DO NOT store seeds in a plastic bag.**

Please send an email to the Plant Materials Center (john.leif@mi.usda.gov) when shipment is sent.
